

# MP Direct™ & MP Premier™

Next-level property search and display on your own website.

RealNex not only delivered a high-performance, professional-looking website on-time and at a very reasonable price, they also helped me to clearly define an entire corporate brand - both online and offline.

**Ryan Shook** | President & Managing Broker, Shook Commercial Real Estate

## MP Premier™ delivers next-level property search and display.

- ✔ Full access to an API-driven WordPress plugin that leverages the power of RealNex Marketplace. Zero dual data entry.
- ✔ SEO-optimized property listing detail pages generate representative images for social media
- ✔ Customize colors, fonts, map pins, and more to fit your corporate brand
- ✔ All driven by a WordPress plugin that is regularly supported, updated, and improved

**RealNex is the Technology Behind the Deal.**

# Power your website with a **robust search engine** that profiles your team and their listings!

## With MP Direct...

we offer a variety of packages to showcase your listings with maps and thumbnails. You pick the theme from one of our templates and we provide the link. Pick the view, color palette and search features. It's that easy.

## Want more. Upgrade to MP Premier.

Customize the look and feel to match your website design look and feel. Even add closed transactions and featured properties. Choose an interface to your liking...and browsers remain on your site to further enhance your SEO.

## Either way you take advantage of streamlined, efficient listing management and display.

- ▶ Single-source Listing Management, listings entered in the RealNex Marketplace feed directly into your website.
- ▶ Spotlight your agents, their listings, experience and qualifications.
- ▶ Powerful search tools for clients to easily access the best listings to meet their needs.
- ▶ Sophisticated mapping and data overlays.
